This concept, with its discrete aluminium columns, really works wonders. This pergola with a fabric roof is the perfect match for a contemporary home, but in a Classic Line finish with cornices and ornaments, it certainly does not look out of place when paired with more traditional architectural styles either.

On top of that, it can easily be joined together – handy for anyone looking to extend their pergola with a fabric ceiling in the future. The screen roof shelters you from water, wind and sun. If you would like a panoramic view of the blue sky or stars at night, the roof can quickly and easily be fully retracted.
